

NOTICE TO FINAL YEAR STUDENTS WITH STATE EXAMS (GM)

Progress Plan of the Faculty of Medicine of the SMU in Bratislava to ensure the completion of the 2019/2020 school year for the final year of study in the General Medicine study program.

UPDATED on April 23, 2020

The Extended Dean's College, held on 20 April 2020, decided on the following procedure for securing the end of the 2019/2020 academic year for the State Examination year Study program in General Medicine.

Already at the beginning of the crisis situation, the students of the state examinations were instructed and invited to use all available forms of distance education and *especially for self-study* so that they were theoretically ready to take the state final examinations at the originally planned dates.

We are planning to take the final state exams from 04. 05. 2020 to 31. 08. 2020 using distance form.

For this purpose, the Gastro-salónik at Limbova 12 and room A 134 is reserved for the examination commission with full technical support. The practical part of the exam is not necessary, and the theoretical part consists of 3 exam questions. The number of members of the examination board must be at least 3 (chairman + 2 members).

Timetable of exams (deadlines) is available below this information. Examinations will take place in whole groups (2 students are connected at the same time). 1st deadline is mandatory and must be observed by all students (except for an objective obstacle with documentary evidence). The schedule of revision dates will be published at least 2 weeks in advance. Students of different groups can take part in the re-examinations. Distance testing logistics is also published on the SMU website.

Interruption of full-time education consequently left a lot of students having not completed block **internships** before the remaining state final examinations. Due to the critical situation, the content and course of the block internships will be modified and implemented as follows:

- Block internships will take a distance learning form.
- The duration of block internships will be reduced (practice at bedside). The content will be especially focused on intensive summary of the curriculum, or consultations according to the course guarantor's decision.

For distance form of examinations, each student must:

- Have a functional smartphone or notebook with a functional camera (with sufficient power supply)
- Have a room in which he / she will be alone and not disturbed. This will be documented by the actual capture by a camera, which will then be placed so as to capture it throughout the test, to demonstrate that he is alone in the room throughout the test and has no way of looking for information in any way.
- Present an identification card **or a student card.**

Timetable of Final State Examination

	Gastrosalón	A134
11.5.2020	Surgery GM, Gr B, retake exam	
14.5.2020	Pead. GM, Gr A	
27.5.2020	Int. GM, retake exam	Pead. GM, Gr B
10.6.2020	Surgery GM, Gr A	
26.6.2020	Gyn GM, Gr B	

23.04.2020

doc. MUDr. Martin Gajdoš, CSc.
Dean of MF SMU in Bratislava
